

1. FOLLOW-UP ON ACTION ITEMS <i>a. Review previous meeting notes and action items (see attachment 2)</i> <i>Final revisions still need to be made by Ivan and Michael</i> <i>Hope to have a final version that incorporates the comments and feedback received so far early next week</i>	5 min
2. JOINT SYNTHESIZING-RECOMMENDING MEETING <i>a. Summary of previous meeting</i> <i>Equal attendance from both groups</i> <i>Initially talked about the meeting with Paula Williamson about the COMET initiative, and the prevention core outcomes which is currently still work in progress</i> <i>The main items included:</i> ○ <i>A presentation by Allison Tong on the core outcomes set for treatment, multi-national work aimed to identify a core outcome set. It has been published and includes 5 core outcomes: shortness of breath, respiratory failure, multiple organ failure, mortality, and recovery.</i> ○ <i>There was a discussion on how the core outcomes will be measured and potential challenges of that</i> ○ <i>The expectation is that the core outcome set will evolve over time, and certain concepts such as long COVID will be included in the future</i> ○ <i>Equity and the sub-group that has been formed</i> ○ <i>Discussed the need for the inventory to be more reflective of equity concerns /perspective and whether the Digitizing working group can set up some tools that can pre-identify those reviews that have equity consequences in terms for differential effects for different outcomes or reviews that directly address equity</i> ○ <i>Discussed the importance of cost and affordability, especially in low-resource settings</i> ○ <i>If the Recommending working group has equity ideas or recommendations, they can send them to either Vivian Welch, Andrea Tricco and/or Anna Dion</i> ○ ACTION: David and Safa to invite Mireille for 0.3cm BT ACT 0.24kC	

David raised the COVID-NMA project that is currently writing to all primary trials as soon as their titles are registered as encouragement to study the core outcomes set and include the sets as part

<i>(price range would be more politically correct than providing one set price point), especially for the drugs in the clinical management inventory</i> <i>The price range could also help address equity concerns of the inventory</i> <i>The inventory can include additional columns that provides link to guidelines and then information about price /cost. David mentioned perhaps using an approach similar to the Michelin guide to inform the price range, for example, utilizing different number of dollar signs to signify price ranges</i> <i>Do we want to add additional columns that outline PICO which would help users find what they need based on their PICO targeted question</i> ACTION: To clearly define NIPH and GIN's work and what they are doing before we start a project of linking guidance resources to the inventory <i>Michael mentioned the importance of the inventory and how he is currently using it as part of a group that is advising the local essential medicine list and the linked guidance coming out of South Africa. They are using the inventory to identify high level systematic reviews and linked GRADE evidence profiles to use in training for essential medicine list guideline development committees. The link to an existing guideline embedded in the inventory will be really useful for various groups to provide informed local or national decisions</i> <i>i. Evidence about public health measures – link here</i> <i>o 'Show/hide columns' to display additional decision-relevant details including whether it is a living evidence synthesis, what type of synthesis and type of question (e.g. benefits and harms)</i> <i>ii. Evidence about clinical management – link here</i> <i>iii. Evidence about health-system arrangements – link here</i> <i>iv. Evidence about economic and social responses – content to be added</i>	
5. ANY OTHER BUSINESS <i>a. Weekly Friday meetings at 9am Eastern till the end of October</i> <i>b. Biweekly Friday meetings at 9am Eastern from November till the end of March</i> <i>c. No scheduled COVID-END meetings (partners, co-chairs and working groups) for the following weeks:</i> <i>i. Week of October 12</i> <i>ii. Week of November 16</i> <i>iii. Week of December 21</i> <i>iv. Week of December 28</i>	5 min
