

Ontario Health Teams

Ontario Health Teams (OHTs) are changing how healthcare is delivered in the province so that **patients receive better integrated care in their community**. The Ontario Government has tasked providers (e.g. primary care, hospitals, home care, mental health and others) to **voluntarily** come together and self-organize to **design and deliver a coordinated continuum of care to a defined population or group**.

Patients receiving their care from one integrated system in a region

24/7 patient navigation support

High use of digital tools for population health

Governance is self-determined

Are OHTs Mandatory for Family Physicians (FPs)?

How do I learn more?

Speak to other family physician (FP) leaders in your community about some of the activity already underway or email us at ocfp@ocfp.on.ca. You can also email our colleagues, and access the ocfp.on.ca website, and other OHT information and supports:

- o Ontario Medical Association (OMA) at OMA_OHT@oma.org;
- o Section on General and Family Practice, OMA, at OHT@sqfp.ca;
- o Association of Family Health Teams of Ontario at info@afhto.ca (if part of a FHT or want to connect a FHT);
- o Rapid-Improvement Support and Exchange ([RISE](http://rise@mcmaster.ca)) SDUW RI WKH 02+¶V FHQWU supports for OHTs. You can also contact rise@mcmaster.ca.
